

# FEATURED PROJECT

## Featured Facts:

### Project Location:

DeKalb County, GA

### Key Features:

42 Classrooms  
1,400 Seat Gymnasium  
600 Seat Performing Arts Theater  
Silver LEED-NC

### Square Footage:

240,000

### Estimated Cost:

\$40,000,000

## Arabia Mountain High School

Conway & Owen provided M/E/P design services for this new state-of-the-art, 240,000 square foot SILVER LEED-NC high school. The design included a 600 seat performing arts theater/auditorium, a 1,400 seat gymnasium, kitchen, cafeteria, technology center, library, 42 classrooms, 10 science laboratories, greenhouse, and a media center.

Arabia Mountain was the first public high school in the Southeast to achieve LEED status and served as a potential prototype public school of the future.

# K - 12

## Darlington Middle School

Rome, Georgia

Conway & Owen provided M/E/P services for this new two-story, 65,000 square foot, \$21,000,000 private middle school building designed for LEED-FS Certification. The state-of-the-art facility features 18 classrooms, science laboratories, a wireless library/media center, a student commons, band and choral rooms, and a spacious assembly hall for gathering and dining purposes. The building uses an integrated classroom lighting system with daylight harvesting.

Darlington Middle School

## Savannah Country Day School - Lower School

Savannah, Georgia

A new LEED Certified lower school building that was the first LEED-NC school in Savannah. The 52,500 square foot building houses PreK-5, the media center, science facilities, and administrative offices for the Lower School.

## Pike Road Primary Education School

Pike Road, Alabama

A 100,000 square foot, \$13,000,000 primary education school for grades K-8. The design included mechanical, electrical, plumbing, theatrical lighting, and sound systems. The school has a gymnasium, auditorium, media center, full kitchen, and classrooms.

## Other Notable Projects:

- Camp Creek Middle School; College Park, Georgia
